ENTERPRISE PLATFORM ARCHITECT & ENGINEER

Enterprise platform architect and engineer with 10 years of IT experience and 7.5+ years delivering complex, multi-cloud Salesforce solutions across enterprise environments. Expert in translating business requirements into scalable architecture, secure data models, robust API integrations, and governed release pipelines. Hands-on engineer with deep programmatic capability in Apex, LWC, JavaScript, and REST/SOAP APIs. 15 certifications spanning Salesforce Architecture, Data, Integration, Security, and AWS AI. Proven delivery at PwC, IBM, and Deloitte.

CORE COMPETENCIES

- Enterprise Architecture: Solution design, technical blueprinting, data modeling, scalability patterns, multi-cloud strategy, POCs, estimation
- Salesforce Platform: Sales, Service, Experience, Field Service, Marketing Cloud Engagement & Next, Data Cloud, Consumer Goods Cloud
- Security & IAM: Profiles, permission sets, OWD, sharing rules, personas, field-level security, GDPR compliance, Salesforce Identity & Access Management
- Integration & Data: REST/SOAP APIs, Platform Events, Marketing Cloud Connect, Data Loader, Postman, JSON, SQL/SOQL, data migration, ETL patterns
- Development: Apex (classes, triggers, async), LWC, Aura, Visualforce, JavaScript (ES6+), Node.js, PHP, HTML5, CSS3, AMPscript, SSJS
- DevOps & Delivery: Git, GitHub, GitHub Actions, SFDX, CI/CD, Jira, sandbox strategy, SIT/UAT, unit testing, release management
- Cloud (Foundational): AWS (EC2, S3, Lambda, IAM – foundational), Heroku, Azure (exposure)
- AI & Emerging Tech: Agentforce (certified), prompt engineering, AI agent concepts, RAG awareness, AWS AI Practitioner
- Web & CMS: WordPress, Magento, Bootstrap, Angular 7, React, SeleniumJS
- Data Operations: Excel, CSV, data cleaning, bulk imports, validation, format conversion

PROFESSIONAL EXPERIENCE

Senior Salesforce Developer & Consultant | Peak & Peak | Sep 2025 – Sep 2026

- Architected and delivered cross-cloud solutions spanning Service Cloud, Experience Cloud, Marketing Cloud Next, and Data Cloud across international operations.
- Designed Experience Cloud portals with multi-audience targeting, custom-branded LWC components, and tailored page structures for customer-facing digital properties.
- Supported Marketing Cloud Next and Data Cloud architecture for subscriber growth initiatives, including web capture, consent governance, Customer 360 monitoring, and data-ingestion design.
- Governed organization security and data visibility through personas, profiles, permissions, and sharing rules.
- Managed SFDX/Git deployment workflows and Jira delivery tracking, including conflict resolution and metadata deployment pipelines.
- Extended Field Service Mobile with custom LWC and Apex functionality, including unit testing and offline-ready considerations.
- Validated integrations and JSON/API behavior using Postman for endpoint, authentication, and payload testing.
- Maintained functional and technical familiarity with Consumer Goods Cloud core capabilities.

Salesforce Consultant | PwC | Aug 2024 – May 2025

- Translated enterprise functional requirements into technical designs, implementation specifications, effort estimations, and proof-of-concepts.
- Delivered data-driven CloudPages and subscriber experiences using JavaScript, HTML, and AMPscript.
- Designed a GDPR-oriented customer preference centre using Salesforce security and sharing controls — a foundational component for modern consent governance and AI-readiness.
- Facilitated technical discovery workshops with project managers and client specialists, communicating progress, dependencies, and architecture risks.

Salesforce Consultant / Delivery Specialist | IBM | Mar 2021 – Apr 2024

- Delivered Salesforce solutions across Service, Marketing, and Experience Cloud, combining configuration, automation, custom development, and integration.
- Supported Service Cloud operations for 100,000+ contacts and 16 business departments, including Omni-Channel, Web-to-Case, SLAs, entitlements, and milestones.
- Administered and enhanced Marketing Cloud Engagement for 50,000+ subscribers, including Journey Builder, Automation Studio, data imports, and audience segmentation.
- Built REST/SOAP integrations and used Postman for endpoint, authentication, and payload validation; maintained Marketing Cloud Connect synchronisation.
- Delivered Experience Cloud portals and reusable UI components.

- Established release, code-review, and testing practices with Git, Metadata API, and CI/CD processes.
- Developed bulkified Apex, asynchronous processing, Flow automation, LWC, and supporting test classes for enterprise use cases.

Salesforce Developer / Analyst | Deloitte | Feb 2019 – Feb 2021

- Consolidated 12 business processes and complex record-type structures into a Field Service architecture supporting 500+ technicians and dispatch users.
- Configured and extended Field Service Mobile, service appointment lifecycles, scheduling logic, Apex controllers, and automation.
- Owned testing and release-readiness activities across sandboxes, including unit tests, mock frameworks, functional testing, SIT/UAT, and defect tracking.
- Managed security and visibility through profiles, permission sets, OWD, and sharing rules; supported data migration and bulk loading with Data Loader.
- Translated platform constraints and architecture decisions into clear documentation for non-technical stakeholders.

Back Office Specialist | Zstores | Dec 2016 – Aug 2017

- Managed data collection, formatting, and bulk imports into Magento CMS.
- Administered third-party integrations and automated data import processes.
- Handled large volumes of product data with quality and stock control responsibilities.

Web Developer Intern | ArtAbout | Apr 2016 – Oct 2016

- Developed and maintained WordPress-based websites with PHP and JavaScript customisations.
- Built responsive front-end interfaces using CSS and Bootstrap; ensured cross-browser compatibility.
- Created custom email signatures, plugins, and theme modifications.

CERTIFICATIONS (15)

Salesforce Architect:

- Salesforce Certified System Architect
- Salesforce Certified Application Architect
- Salesforce Certified Application Lifecycle and Development Architect

- Salesforce Certified Platform Sharing and Visibility Architect
- Salesforce Certified Platform Data Architect
- Salesforce Certified Platform Integration Architect
- Salesforce Certified Platform Identity & Access Management Architect

Salesforce Platform & Functional:

- Salesforce Certified Platform Developer I
- Salesforce Certified Marketing Cloud Engagement Administrator
- Salesforce Certified Service Cloud Consultant
- Salesforce Certified Experience Cloud Consultant
- Salesforce Certified App Builder
- Salesforce Certified Administrator
- Salesforce Certified Agentforce Specialist

Cloud / AI:

- AWS Certified AI Practitioner
